

RARE GENETICS.

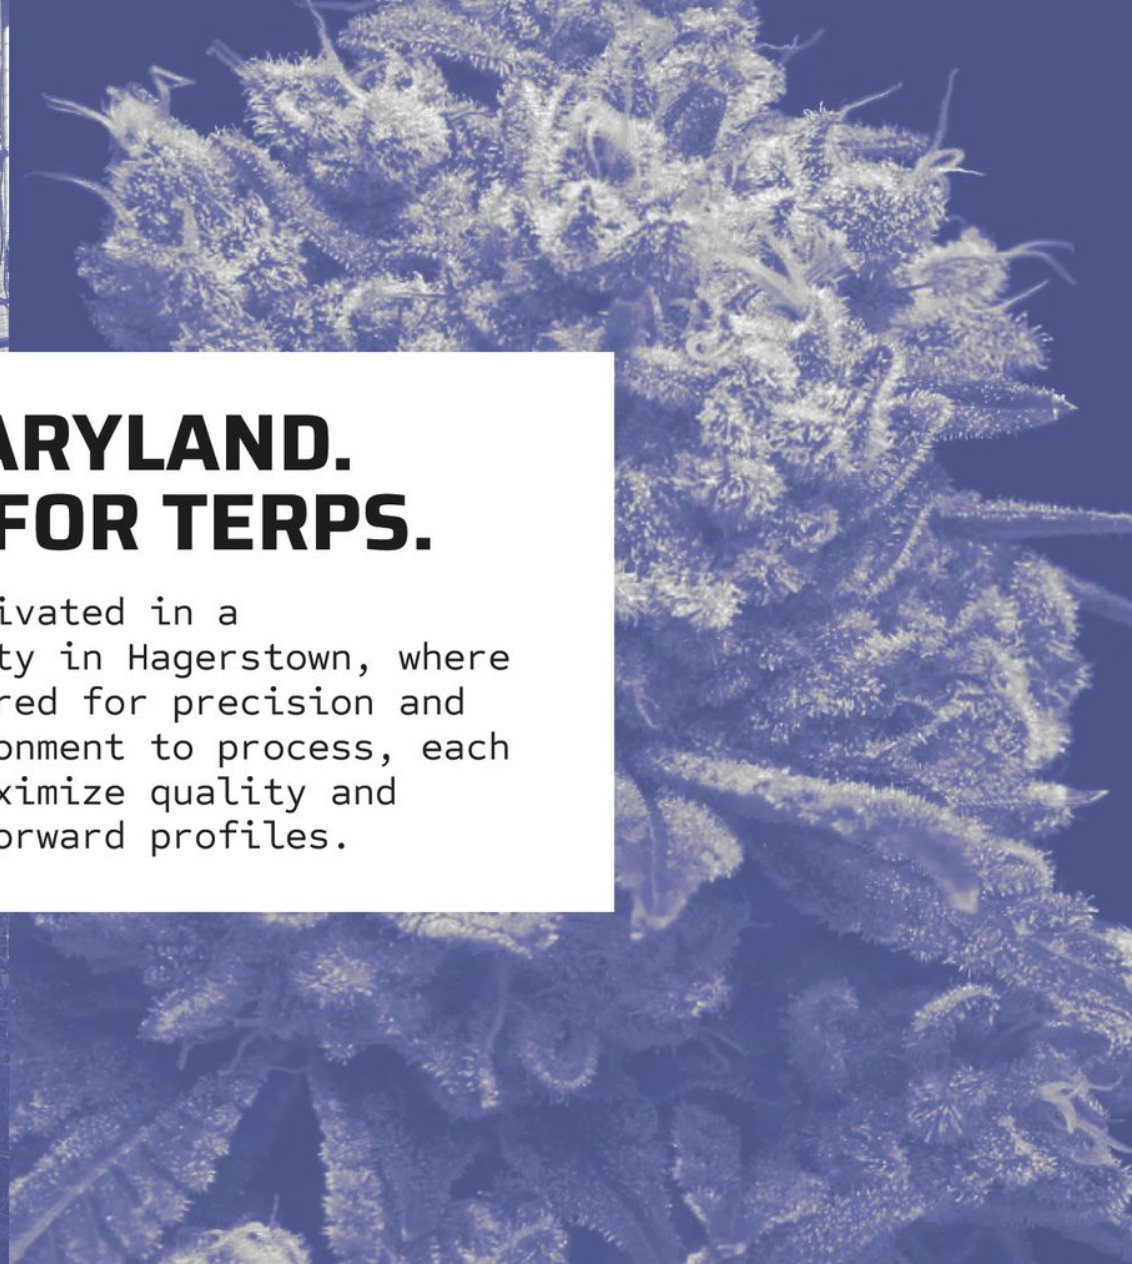

DELIVERED DIFFERENT.

THE INTERSECTION OF ART AND CANNABIS

Shippers collaborates with a diverse range of artists, featuring original artwork directly on its packaging. Each drop spotlights a new artist, turning every release into a collectible artifact.

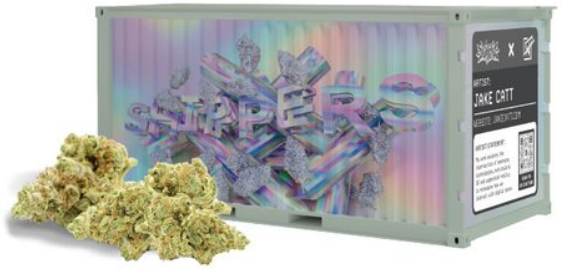

GROWN IN MARYLAND. ENGINEERED FOR TERPS.

Shippers flower is cultivated in a state-of-the-art facility in Hagerstown, where every detail is engineered for precision and consistency. From environment to process, each step is optimized to maximize quality and deliver rich, terpene-forward profiles.

THE WORK OF A MASTER CULTIVATOR

Andras Kirschner, founder and head grower at Shippers, is a cannabis veteran and master pheno-hunter with a deep library of rare genetics, bringing a true connoisseur’s perspective to every strain through his detailed strain notes.

MEET THE ARTIST

Born in Washington, D.C., Jake Catt makes art that explores the intersection of emerging technologies-particularly 3D sculpting, virtual reality, and augmented reality-to reimagine how we perceive and interact with digital space.

DIGITAL SCULPTURE

The augmented reality experience by Jake Catt reveals a floating 3D sculpture after scanning a QR code. Viewable on your phone, it turns Shippers packaging into an interactive digital moment.
